OLAPLEX - INSURANCE FOR YOUR HAIR OLAPLEX.

Go Blonder. Push the envelope further without compromising the integrity of the hair. This revolutionary product is like no other. From photo shoot to the salon chair, colourists are set free from the fear of damaged hair. From Base Colour to Balayage and everything in between, Olaplex multiplies bonds making hair stronger, healthier, while colour lasts longer with more vibrancy. With this fresh outlook, this dream team Dr. Eric Pressly and Dr. Craig Hawker, invented a single ingredient chemistry, that is free of silicone or oils that links broken bonds in the hair during and after chemical services making them stronger than they were before. Olaplex is added to colour before application.
